iPad Procurement Information (v5)

Parents have a number of options for the purchase of an iPad. All purchases through the School are required to be ordered through the Winthrop Australia online portal: <https://portal.winaust.com.au/a/jsr>

iPAD MODEL

The iPad preferred is the current model new 9.7-inch with 32GB of storage capacity and Wi-Fi connectivity. Earlier generation models, which may already be owned by some families, are an acceptable alternative, such as iPad Air or iPad Air 2 as long as it is a model capable of running the latest version of iOS. Currently this is iOS 114.3. An iPad Gen 1, 2, 3 and 4 or iPad Mini are deemed unsuitable as they are unable to run this version of the operating system.

ACCESSORIES AND OPTIONS

All iPads are supplied with a standard cable and power adapter. Parents have a choice from the following additional options:

- **Cover:** The School **strongly recommends** the purchase of a cover to protect the iPad from damage. Three options have been provided through the online portal. Parents also have the option of purchasing an alternative cover of their choice.
- **Extended Warranty:** The iPad is covered by 12 months AppleCare Warranty. The option of extending the warranty from 12 months to 24 months is available.
- **Insurance:** The option of purchasing insurance for the iPad is available. Parents are advised to contact their Insurance Company to determine whether their iPad is covered under their existing policy. Winthrop Australia have offered an insurance option which can be ordered with your iPad via the online portal. We do urge you to shop around and carefully consider your insurance options.

PURCHASING AND PAYMENT OPTIONS
